Method External:

All steps require you to be on the UvA Wifi network, or that the UVA VPN is on!

Also start a new browser session

Login to the PC Dashboard

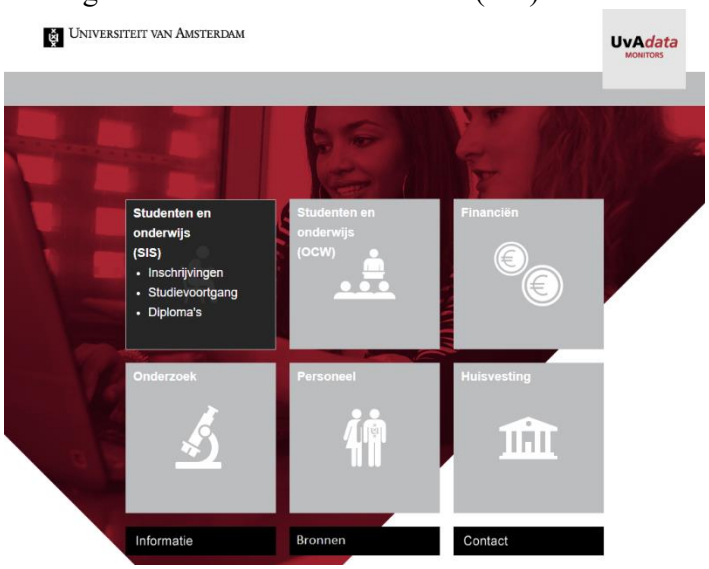

Once the application is approved, a PC member can start using the dashboard.

Are you using the dashboard for the first time? Please review the login instructions carefully

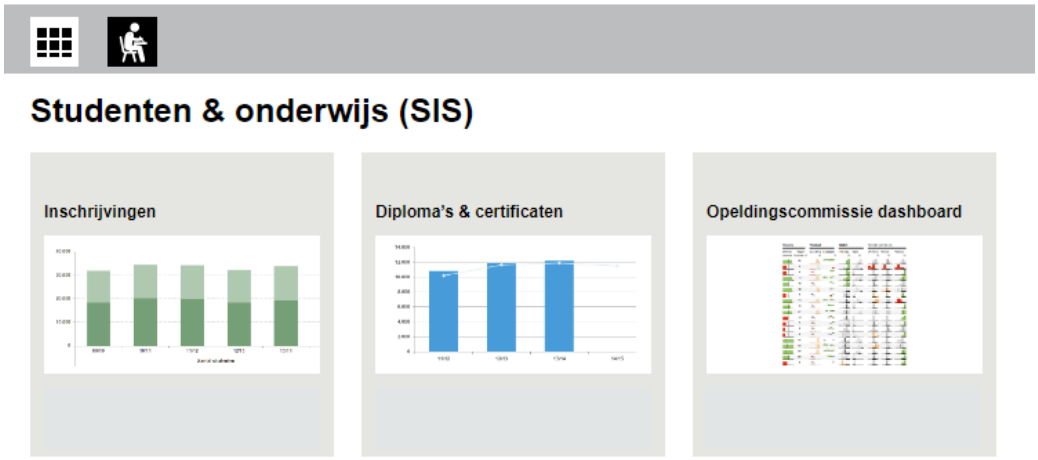

If you have logged in before, below is the easiest way to access the PC Dashboard.

- Student access link
- Employees can access the PC dashboard through their UvA Self-service (zelfbediening), via the UvA data & UvA Q tab
- External employee access link

- Navigate to 'Students and education (SIS)'

- Click on Opleidingscommissie/programmecommittee dashboard

-The following screen appears:

- Getting into the PC dashboard requires a code, which you can request with I don't have a code yet. Click on this, **but also keep this tab open.**

- The following screen will appear:

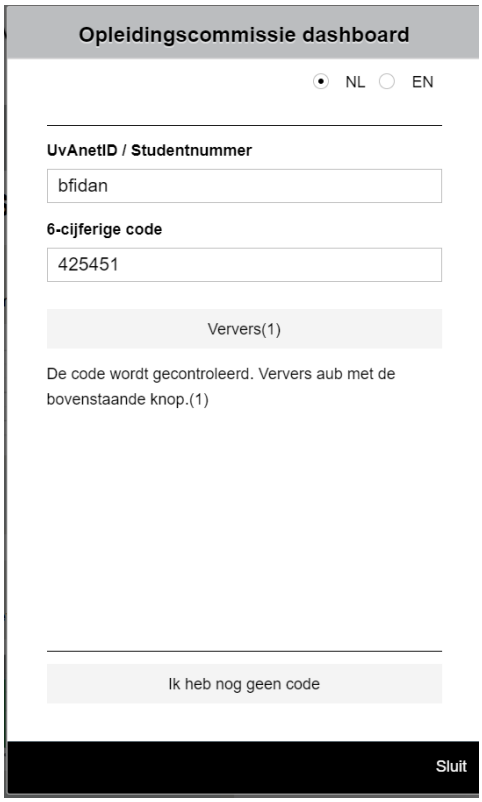

Enter your UvANetID or student number here and click continue, then click ‘refresh’ until the code is sent.

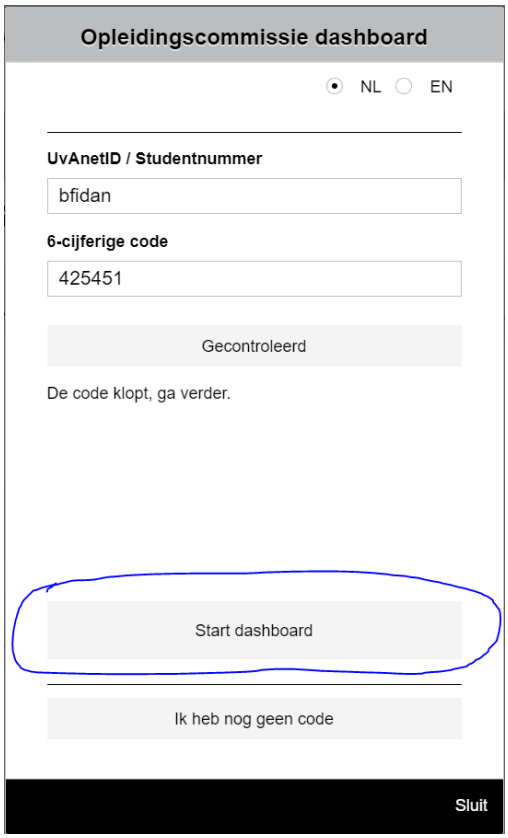

- In your mailbox, you will then receive a code valid for 24 hours to access the dashboard.

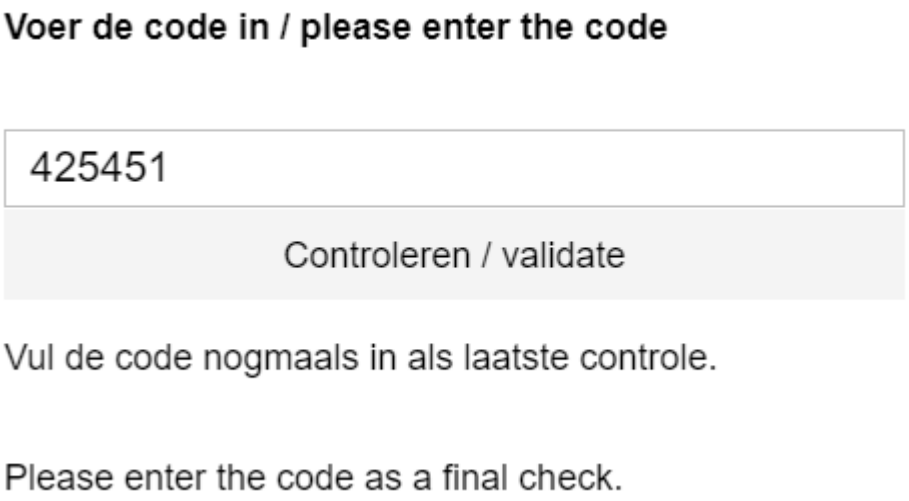

- Paste this code into the screen on the previous tab and click check and refresh

- Keep clicking on refresh until you get a message that the code is correct and ‘start dashboard’ is visible

- Enter the code again on the next screen and keep clicking refresh until you are redirected

- You are now logged in and can click on a course and year and apply additional filters on the right-hand side if required. Launch the Dashboard via the button at the bottom right.
